OBJECTIVE

As a student, I have not yet been exposed to different work environments, but I can confidently say that I can adapt and cooperate closely to other people that I do not know and still perform well in any given task. I can accomplish any task whether if it is about software, hardware, or even just communicating with other people because I am very motivated and eager to learn and I can accept any difference and mistakes because I believe that these are hints and towards success.

EDUCATION

Dean's lister | Polytechnic University of the Philippines

2019 – 2022

EXPERIENCE

Exhibit Committee | Computer Research and Engineering Symposium (CoRES)

JAN 2019 – MARCH 2019

We were tasked to invite other schools and persuade them to give a presentation in our university regarding their projects in line with computer engineering. During the event, we guide and help them in their presentations.

SKILLS

- Multilingual
 - Fluent in Tagalog
